1. FY2023 2Q Financial Results

(1) Financial Highlights

Consolidated Financial Results for the Six Months Ended September 30, 2023

Orders received > 13,009 million yen ▲8.3% yoy

Net sales

12,000 million yen 16.8% yoy

Orders decreased year on year, despite continued demand for decarbonization-related products (fuel cell testing systems and water electrolysis testing systems), due in part to the high level of results in the same period of the previous fiscal year. Net sales increased due to steady capital investment by our customers (manufacturing industry) and stabilized production as the supply shortage of parts and materials was resolved with some exceptions.

| < | Pr | O | fi | ta | bi | li | t۱ | /> |
|---|----|----------|-----|----|----|----|----|-----|
| | | | • • | - | | | ٠, | , - |

Operating profit

914 million yen

69.7% yoy

Ordinary profit

1,064 million yen

38.2% yov

Profit attributable to owners of parent

618 million yen

38.4% vov

Profit increased in all items due to SG&A cost containment, revision of selling prices, and the effect of increased sales.

(3) Analysis of Increase/Decrease in Operating Profit

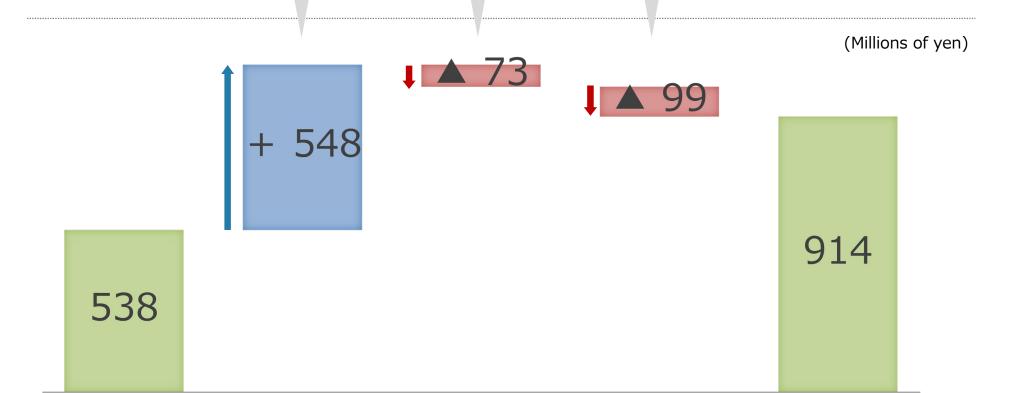

FY2022 2Q Gross profit increase reflecting the increase in the sales

Gross profit increase due to cost cutting

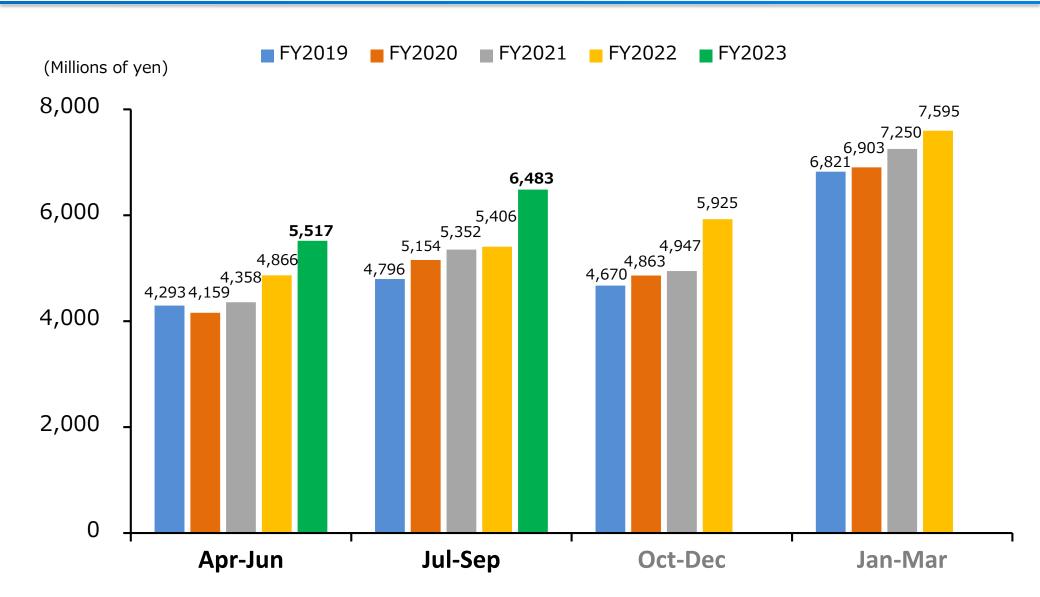

Selling, general and administrative expenses increase

FY2023 2Q

(4) Net sales

(5) Performance Trends by Segment

<Measurement & Control Instruments>

Profit and Loss

Net sales

4,524 million yen

19.7% yoy

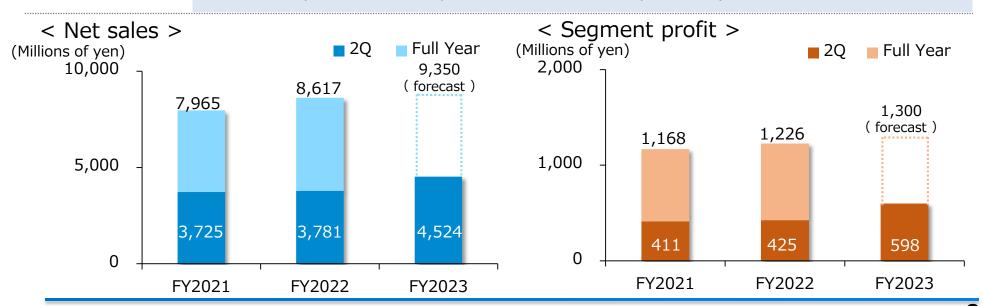

Segment Profit

598 million yen 40.6% yoy

Status by Product

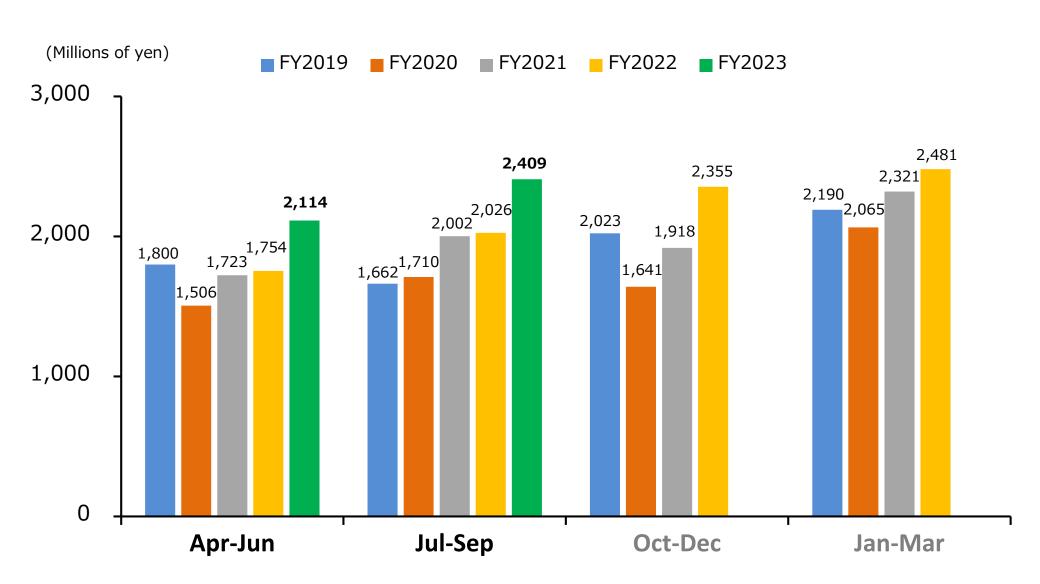

- Demand remained at high levels, mainly for semiconductor/electronic component-related manufacturing systems and heat processing equipment.
- Demand for the Company's products was strong also in overseas markets, particularly China and South Korea.
- Profit increased significantly year on year due to the effect of higher sales, etc. (* 20 of the previous fiscal year was affected by the supply chain disruption caused by the blockade of a Chinese city, which affected production sales of some products.)

(5) Sales Trends

<Measurement & Control Instruments>

(5) Performance Trends by Segment

<Instrumentation Systems>

Profit and Loss

Net sales

3,486 million yen

22.3% yoy

Segment Profit

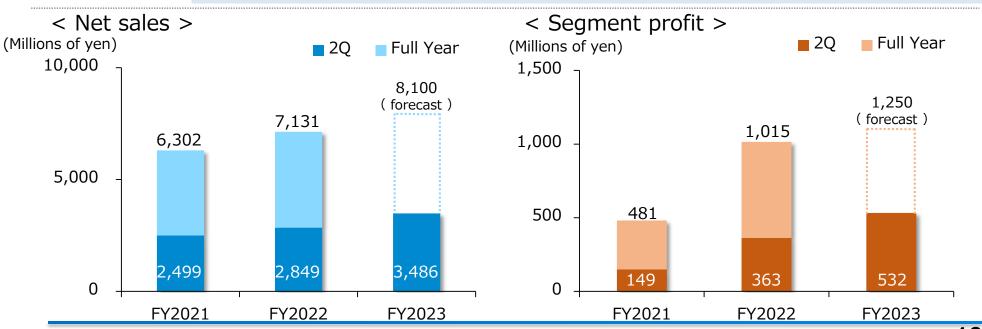

532 million yen

46.7% yoy

Status by Product

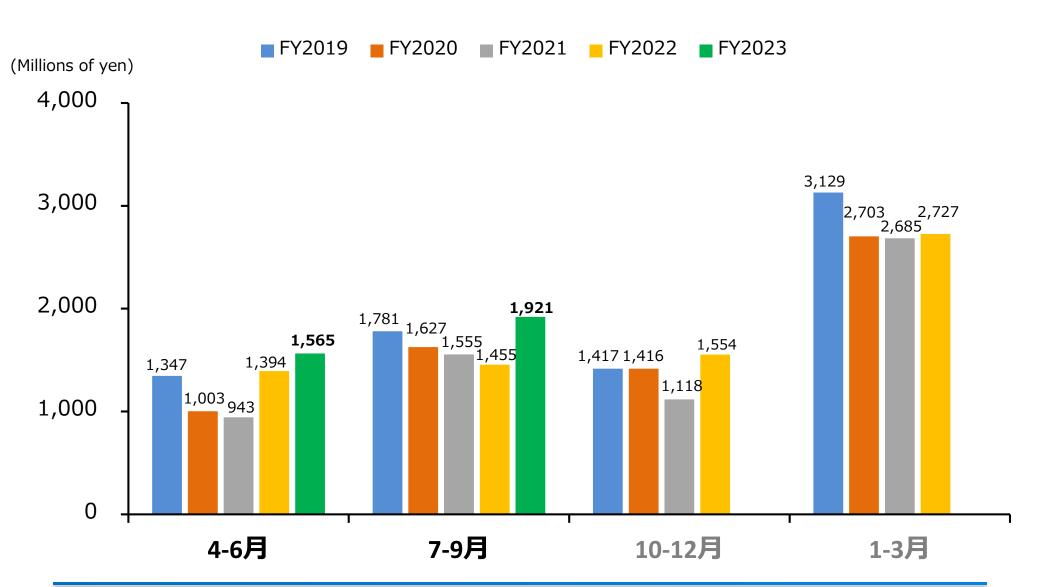

- Continued demand for fuel cell testing systems for automobiles and other decarbonization-related applications, as well as water electrolysis testing systems for research and development of hydrogen energy use.
- Demand for compressor performance testing systems increased for equipment compatible with natural refrigerants.
- Profit increased significantly year on year due to the effect of higher sales, etc.

(5) Sales Trends

Measure with Passion

< Instrumentation Systems >

(5) Performance Trends by Segment

Profit and Loss

Net sales

3,537 million yen

10.2% yoy

Segment Profit

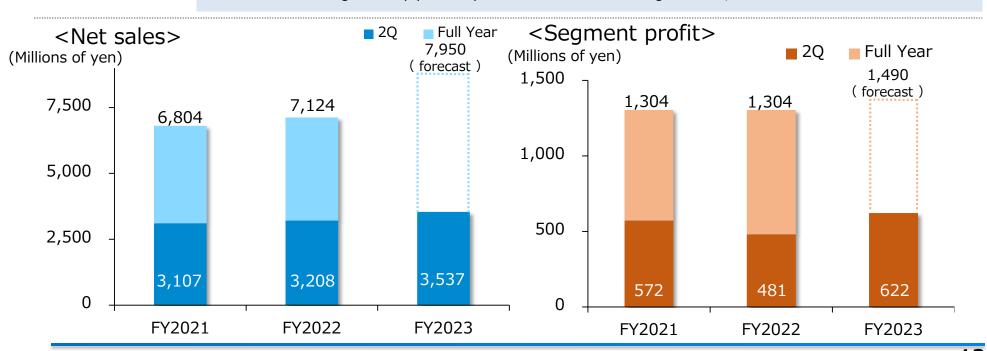

622 million yen

29.4% yoy

Status by Product

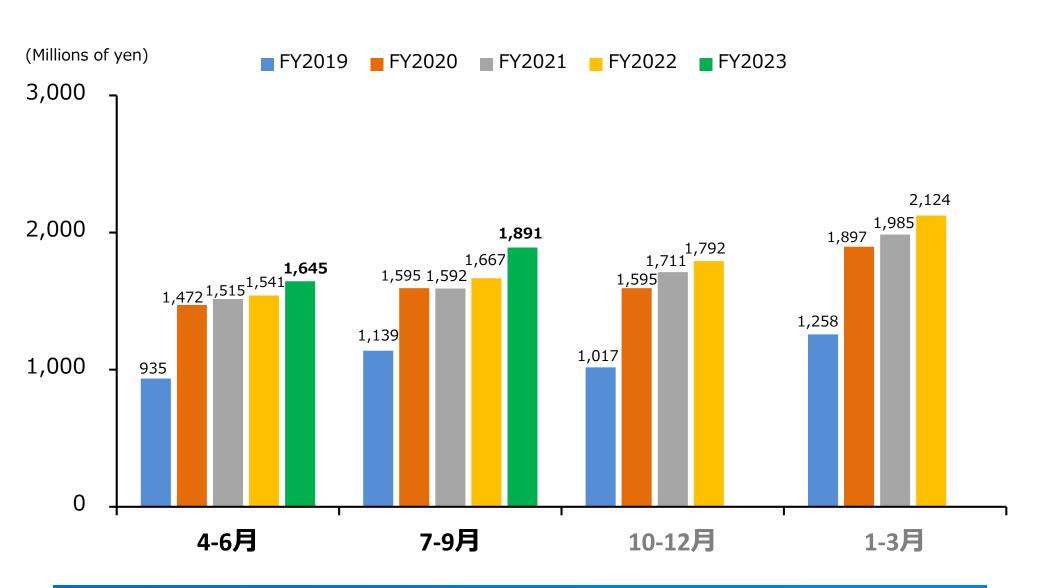

- There is strong demand for both infrared radiation thermometers and temperature sensors for use in semiconductor-related manufacturing systems.
- Demand for temperature sensors that meet AMS also remained robust.
 - *AMS: specifications for special process in the aerospace industry
- Profit increased significantly year on year due to the effect of higher sales, etc.

(5) Sales Trends

<Sensor>

(6) Consolidated Balance Sheet

- Assets: Total assets decreased by 282 million yen from the end of the previous fiscal year due to a decrease in trade receivables, cash and deposits, etc., while inventories increased.
- Liabilities: Non-current liabilities decreased 202 million yen due to a decrease in long-term borrowings, and current liabilities decreased 572 million yen due to a decrease in trade payables, resulting in total liabilities of 774 million yen less than at the end of the previous period.
- Net assets: Net assets increased 492 million yen from the end of the previous period, mainly due to an increase in quarterly profit.

Issued "Chino Report 2023"

In October 2023, we issued the Chino Report 2023, which integrates financial and non-financial information, and made it available on our website.

This annual report is intended to provide shareholders and investors with a better understanding of the Group's business activities and medium to long term management initiatives.

Using this report as one of our communication tools, we will further promote dialogue with our stakeholders and continue our efforts to enhance our corporate value over the medium to long term.

4. Forecast for FY2023

Forecast for FY2023

(Revised announcement on November 10, 2023)

• We have revised our full-year forecast for FY2023, taking into account the progress of our performance in the first half of the year and the situation in the second half of the year, where we expect to see continued demand from our major customers (in the automotive and electronic components sectors, etc.) for hydrogen-related products to help them decarbonize their operations.

(Millions of yen)

| | FY2023 Revised Forecast (Announced on November 10, 2023) | FY2023 Initial Forecast (Announced on May 12, 2023) | Change | |
|---|--|---|--------|-------|
| Net sales | 26,400 | 26,000 | 400 | 1.5% |
| Operating profit | 2,420 | 2,150 | 270 | 12.6% |
| Ordinary profit | 2,620 | 2,350 | 270 | 11.5% |
| Profit attributable to owners of parent | 1,710 | 1,550 | 160 | 10.3% |

Precautions

The forward-looking statements contained in this document are not guarantees of future performance. Based on information currently available to the Company and its group companies. This includes potential risk and uncertainties.

Accordingly, actual results may differ from these forecasts due to the economic environment surrounding our business, demand trends, and other factors.
